## *Audacity*

Efrat Rotem brings a powerful new and surprising spirit to her fine unique album – Audacity. The combination between vocalic levels and stage experience of Efrat, the original melodies of Kobi Oshrat based on the texts of the deceased Ehud Manor and Shimrit Or under the fine work of Ron Klein, Udi Harpaz and Adi Goldstein, create an unusual and fresh flickering that will leave you surprised with a taste for more to come. The Audacity album is a creation which unites opposite ends, combines different styles and brings together different worlds. It was created from a long and big love to the opera singing and openness to variety of styles. These combinations give the music its passion, enthusiasm and power. Efrat Rotem brings into this album her exceptional feelings and her vocal qualities by making this disc a wonderful creation. This disc was recorded with a full string orchestra – NSO – The New Strings Orchestra conducted by Udi Harpaz and the new vocal ensemble – The New Israeli Ensemble conducted by the musical director Yuval Ben Ozer. The mix for this outstanding creation was made by Yoav Shidma and mastered in Sony studios in New York.

**The show is coming:** Efrat presents her Audacity in an impressive and uncompromising show. Efrat Rotem pours the foundation of the Israeli and biblical music into the big, classic arias and gives the phrase "Pop Opera" new life on stage in a spectacular musical event.
